This Certificate is presented to

Sean Lollis-Schenkhuizen

STUKENT CERTIFIED

Financial Accounting: Accounting Cycle Simternship™

Completed on: **April 30, 2026**

This certificate signifies experience:

- Learn the steps of the accounting cycle in a realistic small business setting, complete with video messages from the business partner, emailed invoices, and a realistic online bookkeeping system
- Analyze transactions and determine how those transactions impact the accounting equation
- Understand the basic elements of the balance sheet and income statement
- Understand how all steps in the accounting cycle work together
- Record the impact of transactions using journal entries
- Prepare and analyze financial statements in advance of approaching a bank for further financing
